

DIVERSION OPPORTUNITY FOR TRANSFORMATION

The (dot) .RJ Diversion is a “front & early” prevention and intervention program that offers youth, who have caused harm, an opportunity for transformation by engaging in restorative work through circle discussions and a restorative conference.

Youth will explore topics on responsibility, substance use, impulse, anger, decision making, empathy, values, and connectedness.

In their individual restorative conference, youth will take appropriate accountability for harm caused, be given an opportunity to repair that harm through meaningful amends and move towards healing for all impacted parties.
